

AD=10, AE=8, BCF are tangent points.
Find the radius of circle O.

Let me think based on the
provided image ...

The answer is 2.

Qwen2.5-VL-7B (vanilla SFT)

I should connect OB, OC, OF.
O is at (748,488), B is at (748,695)
C is at (610,305), F is at (575,488)

Render **SVG** on top of the image:

```
<svg>...  
<line x1=748 y1=488 x2=748 y2=695>  
<line x1=748 y1=488 x2=610 y2=305>  
<line x1=748 y1=488 x2=575 y2=488>  
...</svg>
```

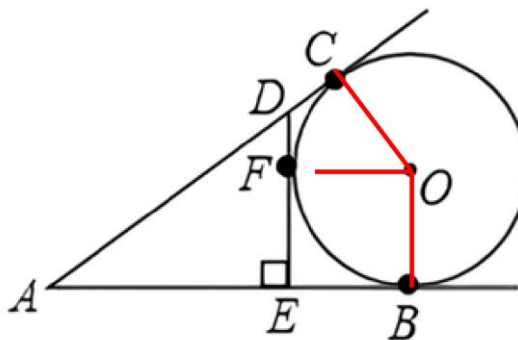

Let me think based on the
rendered image ...

The answer is 4.

Qwen2.5-VL-7B (SVGLM)

Rendered the SVG on a
1000 × 1000 canvas.
Resize the input image
to the same size and put
my SVG on top.

Here is the rendered image.
