

Ordinal vs Spatial Deixis

Hindi

Ek kapde ki dukaan mein salesman keh raha hai, 'Yeh suit 5000 ka hai, woh 3000 ka hai, aur woh saamne wala shelf ka 8000 ka hai.' Grahak ne kaha, 'Mujhe beech wala dikhao'.

In a clothing store, the salesman says: 'This suit is ₹5000, that one is ₹3000, and the one on the shelf over there is ₹8000.' The customer says: 'Show me the middle one.'

Grahak kaunsa suit dekhna chahata hai?

Which suit does the customer want?

A) Rs 3000 one. B) Rs 5000 one. C) Rs 8000 one.

3000 wala suit
Rs 3000 one

"Beech wala" refers to the middle price (₹5000), not the spatially middle suit. Models conflate ordinal and spatial deixis.

5000 waala suit
Rs 5000 suit.

Correct. The customer wants the middle priced suit.
