

"To find the connections for R, we examine the circuit area surrounding it, including all connected wires and immediate neighbors.<|latent_start|><|latent_pad|><|latent_pad|><|latent_pad|><|latent_pad|><|latent_pad|><|latent_pad|><|latent_end|>We identify paths from R to D1, D2. The final answer is: A, B."

Question:
You are an IC expert. What is connected to R?
Options:
A. D1
B. D2'

<|latent_pad|>> <|latent_pad|>> <|latent_pad|>> <|latent_pad|>> <|latent_pad|>> <|latent_pad|>
