Complete Topology

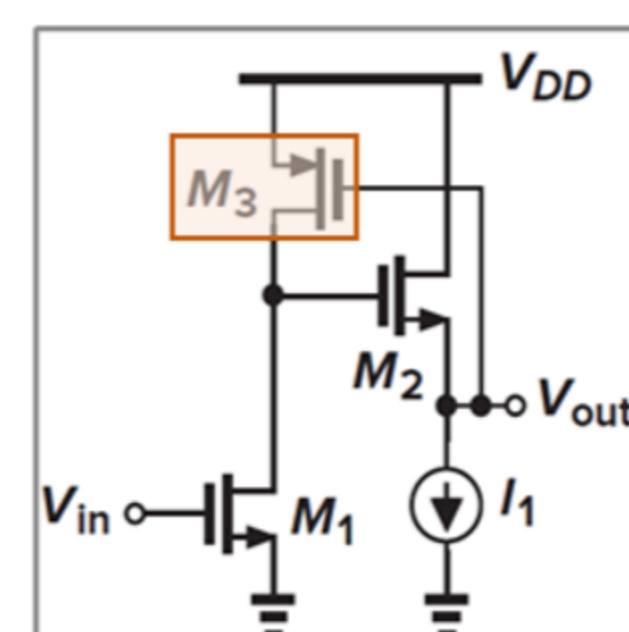

1 Total Counting

Question: What is the total number of components in this circuit?

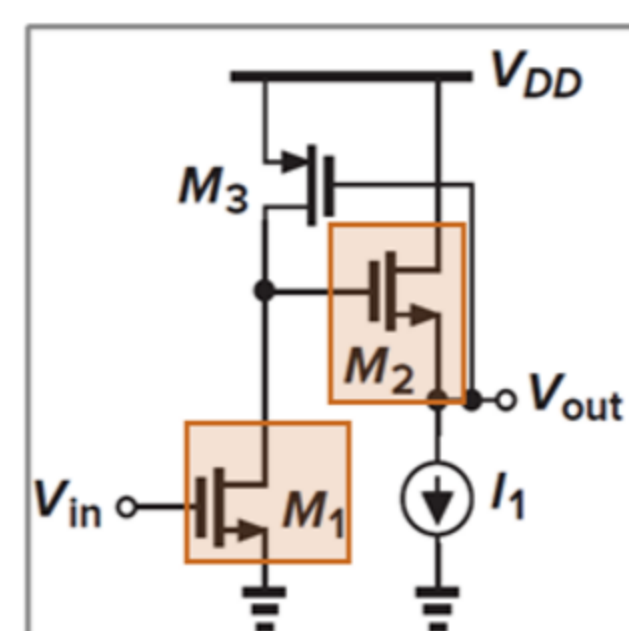

Answer: 4

2 Type Counting

Question: Count the number of pmos components.

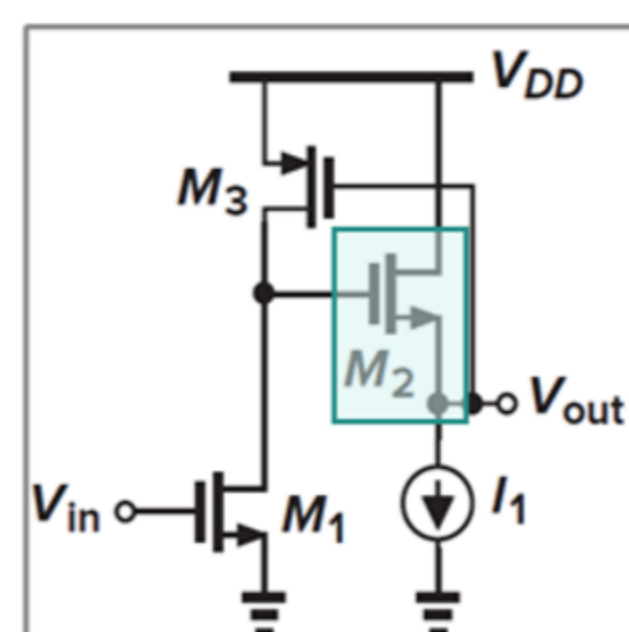

Answer: 1

Question: How many nmos are in the circuit?

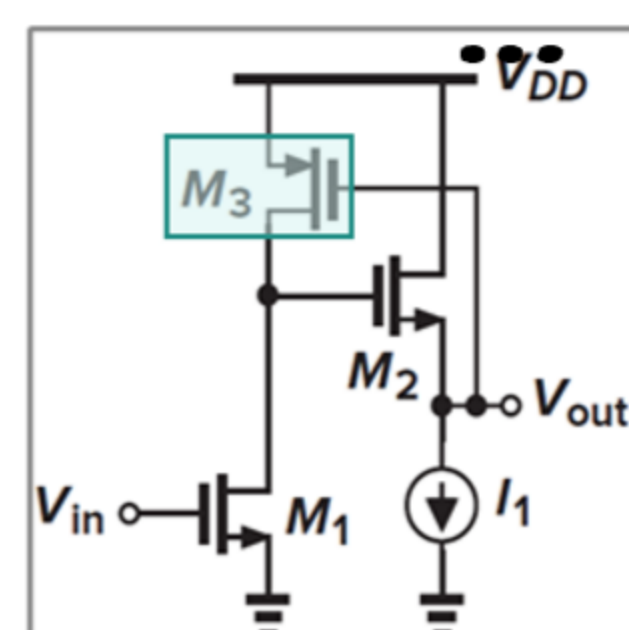

Answer: 2

3 Element Class

Question: What is the function of the device labeled M1? Options: A. diode B. resistor C. pmos D. nmos

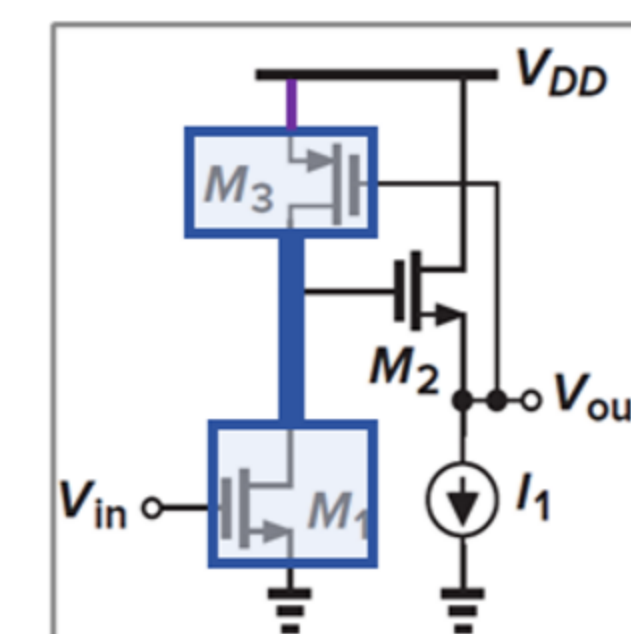

Answer: D

Question: Classify the component labeled as M3. Options: A. diode B. nmos C. pmos D. switch

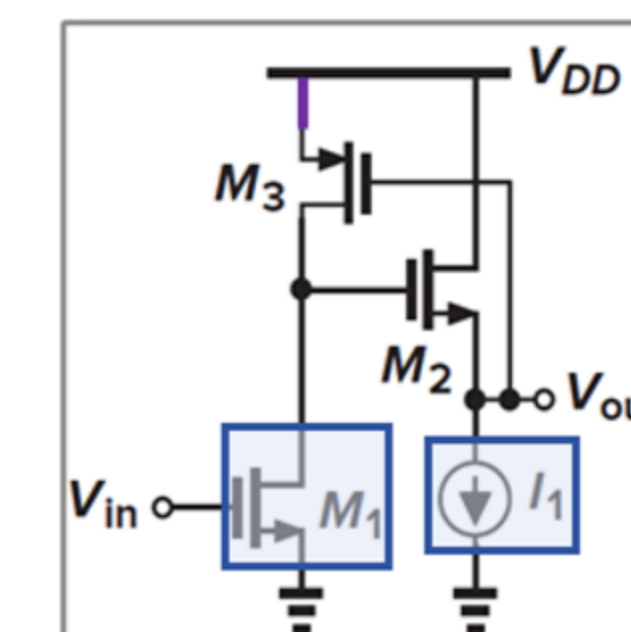

Answer: B

4 Connection Judgement

Question: Is M1 connected to M3? Select the correct option: A. Yes B. No

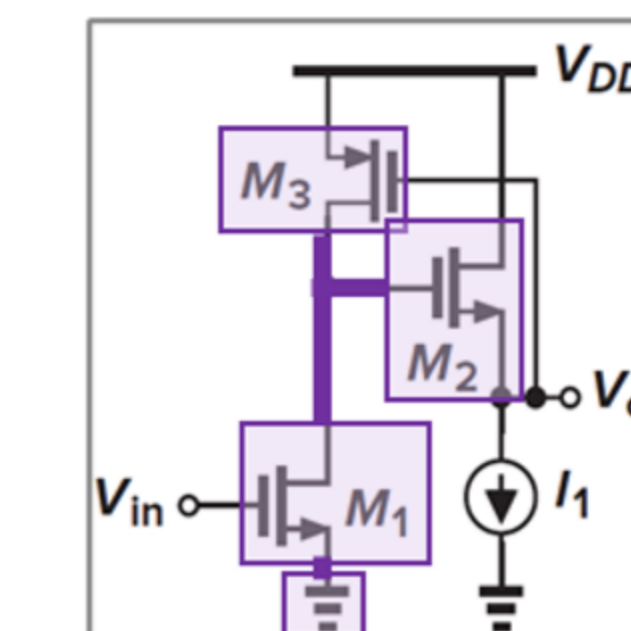

Answer: A

Question: Is M1 connected to I1? Select the correct option: A. Yes B. No

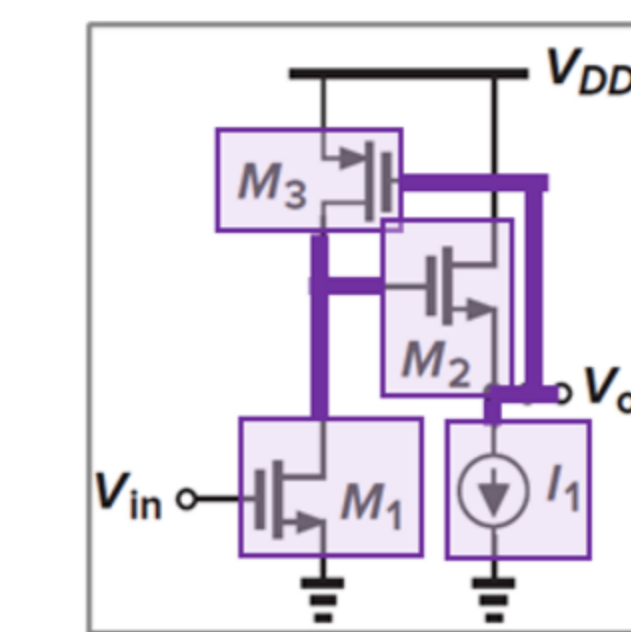

Answer: B

5 Connection Identification

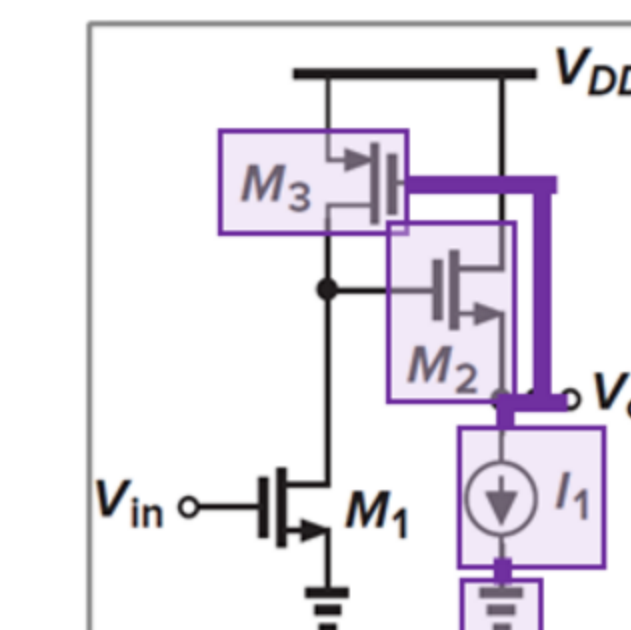

Question: What is connected to M1? Select all that apply. A. M2 B. M3 C. I1

Answer: AB

Question: What is connected to M3? Select all that apply. A. M1 B. M2 C. I1

Answer: ABC

Question: What is connected to I1? Select all that apply. A. M1 B. M2 C. M3

Answer: BC
