

(A) Conventional Image Reasoning

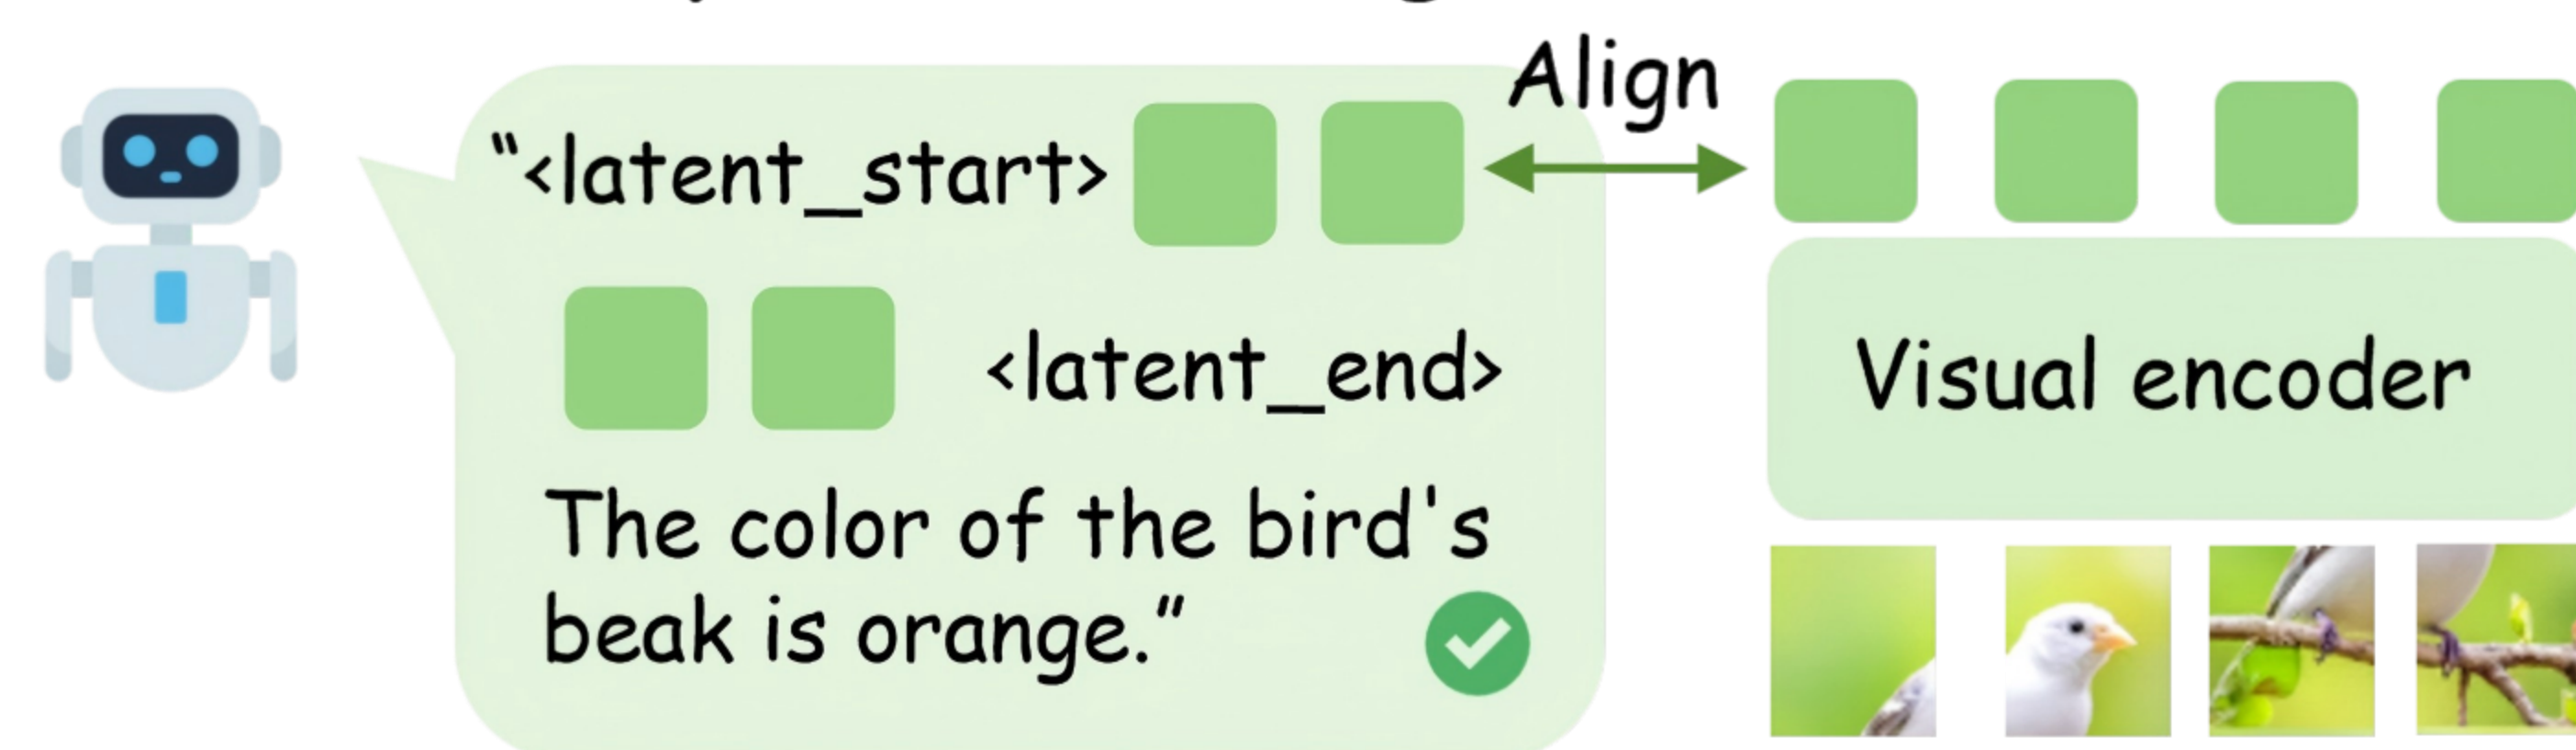

Question:
What color is the
beak of the second
bird on the left?

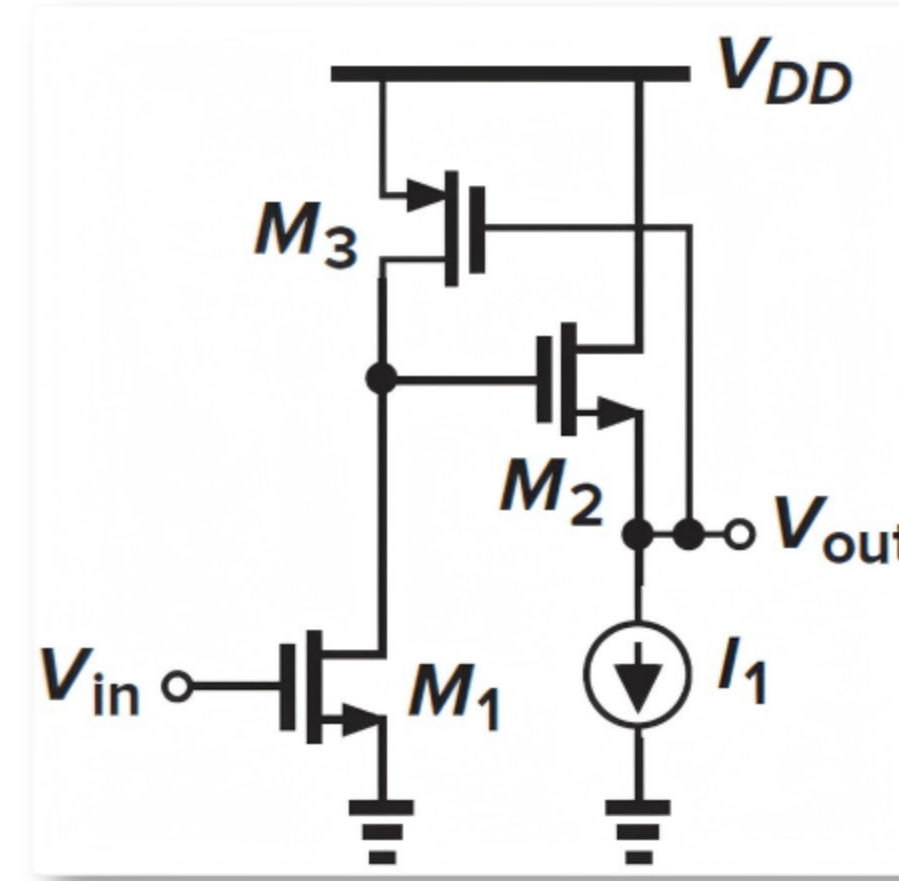

(a) Visual Chain-of-Thought (VCoT)

(b) Latent-space reasoning

(B) Circuit image topology inference

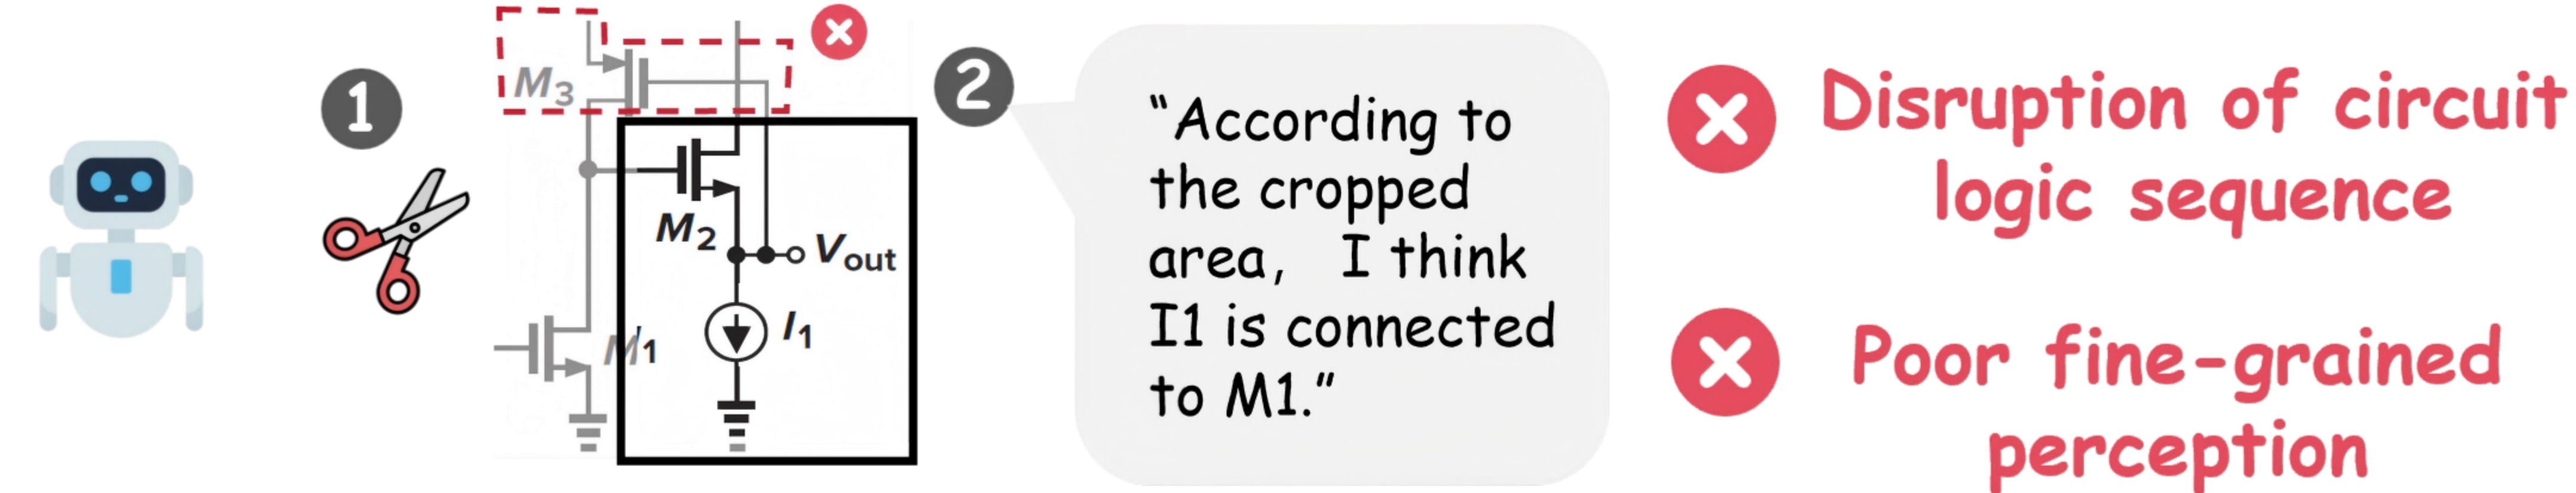

Question:
What devices are
connected to
current source I1?

How can the **structured sequential logic** of circuits be realized within the latent space?

(a) Visual Chain-of-Thought (VCoT)

(b) Latent-space reasoning
